## Federal Communications Commission Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- This device may not cause harmful interference, and
- This device must accept any interference received including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The use of shielded cables for connection of the monitor to the graphics card is required to assure compliance with FCC regulations. Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

## ENERGY STAR® complied product

ENERGY STAR® is a joint program of the U.S. Environmental Protection Agency and the U.S. Department of Energy helping us all save money and protect the environment through energy efficient products and practices.

All ASUS products with the ENERGY STAR® logo comply with the ENERGY STAR® standard, and the power management feature is enabled by default. Toward sustainable IT products

## Say hello to a more sustainable product

IT products are associated with a wide range of sustainability risks throughout their life cycle. Human rights violations are common in the factories. Harmful substances are used both in products and their manufacture. Products can often have a short lifespan because of poor ergonomics, low quality and when they are not able to be repaired or upgraded.

**This product is a better choice.** It meets all the criteria in TCO Certified, the world's most comprehensive sustainability certification for IT products. Thank you for making a responsible product choice, that help drive progress towards a more sustainable future!

Criteria in TCO Certified have a life-cycle perspective and balance environmental and social responsibility. Conformity is verified by independent and approved verifiers that specialize in IT products, social responsibility or other sustainability issues. Verification is done both before and after the certificate is issued, covering the entire validity period. The process also includes ensuring that corrective actions are implemented in all cases of factory non-conformities. And last but not least, to make sure that the certification and independent verification is accurate, both TCO Certified and the verifiers are reviewed regularly.

## Safety information

- Before setting up the monitor, carefully read all the documentation that came with the package.
- To prevent fire or shock hazard, never expose the monitor to rain or moisture.
- Never try to open the monitor cabinet. The dangerous high voltages inside the monitor may result in serious physical injury.
- If the power supply is broken, do not try to fix it by yourself. Contact a qualified service technician or your retailer.
- Before using the product, make sure all cables are correctly connected and the power cables are not damaged. If you detect any damage, contact your dealer immediately.
- Slots and openings on the back or top of the cabinet are provided for ventilation. Do not block these slots. Never place this product near or over a radiator or heat source unless proper ventilation is provided.
- The monitor should be operated only from the type of power source indicated on the label. If you are not sure of the type of power supply to your home, consult your dealer or local power company.
- Use the appropriate power plug which complies with your local power standard.
- Do not overload power strips and extension cords. Overloading can result in fire or electric shock.
- Avoid dust, humidity, and temperature extremes. Do not place the monitor in any area where it may become wet. Place the monitor on a stable surface.
- Unplug the unit during a lightning storm or if it will not be used for a long period of time. This will protect the monitor from damage due to power surges.
- Never push objects or spill liquid of any kind into the slots on the monitor cabinet.
- To ensure satisfactory operation, use the monitor only with UL listed computers which have appropriate configured receptacles marked between 100-240V AC.
- By means of a power cord connected to a socket-outlet with earthing connection.
- If you encounter technical problems with the monitor, contact a qualified service technician or your retailer.
- Adjustment of the volume control as well as the equalizer to other settings than the center position may increase the ear-/headphones output voltage and therefore the sound pressure level.

This symbol of the crossed out wheeled bin indicates that the product (electrical, electronic equipment, and mercury-containing button cell battery) should not be placed in municipal waste. Please check local regulations for disposal of electronic products.

## **Care & Cleaning**

- Before you lift or reposition your monitor, it is better to disconnect the cables and power cord. Follow the correct lifting techniques when positioning the monitor. When lifting or carrying the monitor, grasp the edges of the monitor. Do not lift the display by the stand or the cord.
- Cleaning. Turn your monitor off and unplug the power cord. Clean the monitor surface with a lint-free, non-abrasive cloth. Stubborn stains may be removed with a cloth dampened with mild cleaner.
- Avoid using a cleaner containing alcohol or acetone. Use a cleaner intended for use with the monitor. Never spray cleaner directly on the screen, as it may drip inside the monitor and cause an electric shock.

### **The following symptoms are normal with the monitor:**

- You may find slightly uneven brightness on the screen depending on the desktop pattern you use.
- When the same image is displayed for hours, an afterimage of the previous screen may remain after switching the image. The screen will recover slowly or you can turn off the Power Switch for hours.
- When the screen becomes black or flashes, or cannot work anymore, contact your dealer or service center to fix it. Do not repair the screen by yourself!

### 1.3.3 Other Function(s)

#### 1. Daisy chaining (for selected models)

The monitor supports daisy chain on DisplayPort and USB Type-C. Daisy Chaining allows up to 1 monitors to be connected in series with the video signal being passed from the source to a monitor (when the input source is 2560 x 1440@60Hz and no USB-C device is connected). In order to enable daisy chaining, please make sure the source transported.

This function is only available when Power Saving is Normal Level. If you set Power Saving to Deep Level, all the connected monitors will display the same content at the same time (clone). Note: Input port will be fixed (no auto detection) when DP out cable is plugged.

2560 x 1440 @75Hz

## 2.1 Assembling the monitor arm/base

To assemble the monitor base:

1. Make sure the triangle marks of VESA cover aligned.
2. Attach the arm into the VESA cover.
3. Shut the lock to make the arm and VESA cover assembled.
4. Have the front of the monitor face down on a table, slide the tabs on the arm into the slots on the VESA cover.
5. Press down the arm assembly to snap it into place.
6. Attach the base into the arm, making sure the tab on the arm fits into the groove on the base.
7. Fix the base to the arm by fastening the bundled screw.

We recommend that you cover the table surface with soft cloth to prevent damage to the monitor.

Base screw size: M6 x 16.2 mm.

## 2.2 Detaching the arm/base (for VESA wall mount)

The detachable arm/base of this monitor is specially designed for VESA wall mount.

To detach the arm/base:

1. Have the front of the monitor face down on a table.
2. Press the release button, and then detach the arm/base from the monitor (Figure 1).

---

We recommend that you cover the table surface with soft cloth to prevent damage to the monitor.

---

- The VESA wall mount kit (100 x 100 mm) is purchased separately.
  - The VESA mount should be installed by skilled person. For horizontal placement or vertical use, please refer to next page.
  - Use only with UL/CSA/GS Listed Wall Mount Bracket with minimum weight/load bearing capacity of 5.85 kg (12.9 lb) (Screw size: M4 x 10 mm).
-

## 2.3 Adjusting the monitor

- For optimal viewing, we recommend that you look at the full face of the monitor, then adjust the monitor to the angle that is most comfortable for you.
- Hold the stand to prevent the monitor from falling when you change its angle.
- You can adjust the monitor's angle from  $+23^{\circ}$  to  $-5^{\circ}$ ,  $\pm 30^{\circ}$  swivel adjustment from either left or right, and it allows  $\pm 90^{\circ}$  pivot adjustment. You can also adjust the monitor's height within  $\pm 130$  mm.

(Tilt)

(Swivel)

(Height adjustment)

(Pivot)

It is normal that the monitor slightly shakes while you adjust the viewing angle.

## 2.4 Connecting the cables

Connect the cables as the following instructions:

- **To connect the power cord:** Connect one end of the power cord securely to the AC input port, the other end to a power outlet.
- **To connect the HDMI/DisplayPort/USB Type-C\* cable:**
  - a. Plug one end of the HDMI/DisplayPort/USB Type-C\* cable to the monitor's HDMI/DisplayPort/USB Type-C jack.
  - b. Connect the other end of the HDMI/DisplayPort/USB Type-C\* cable to your device's HDMI/DisplayPort/USB Type-C jack.

It is suggested to use USB certified Type-C cable. If the signal source supports DP Alt mode, all video, audio and data signal can be transmitted.

- **To use the earphone:** connect the end with plug type to the monitor's earphone jack when an HDMI/DisplayPort/USB Type-C signal is fed.
- **To use the USB 3.2 Gen 1 ports:**
  - » Upstream: Use an USB Type-C cable and plug on end of the Type-C connector to the monitor's USB Type-C port as upstream and the other end to your computer's USB Type-C jack. Or use an USB Type-C to Type-A cable and plug the Type-C connector to the the monitor's USB Type-C as upstream and the Type-A connector to your computer's USB Type-A jack. Make sure your computer is installed with the Windows, macOS operating system. That will enable the USB ports on the monitor to work.

Downstream: Do not use extension cord. Please direct connect your USB device with the monitor's USB Type-A or Type-C jack.

When these cables are connected, you can choose the desired signal from the **Signal** item in the OSD menu.

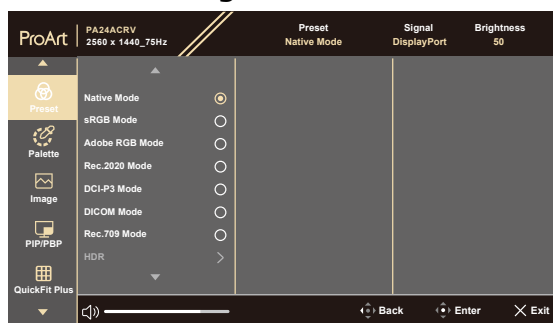

If you need to replace the power cord or the connection cable(s), please contact ASUS customer service.

## 2.5 Turning on the monitor

Press the power button . See page 1-2 for the location of the power button. The power indicator  lights up in white to show that the monitor is ON.
