UltraFine™ 4K IPS LED Monitor

▶ **24MD4KLB-B**

24" class (23.74" diagonal)

Features

4K DISPLAY WITH THUNDERBOLT™
- The LG UltraFine™ 4K display with Thunderbolt™ 3 port can transmit 4K video and data while simultaneously charging a new MacBook Pro (up to 85W) over a single cable. Plus, three USB-C downstream ports (USB 5 Gbps) let you connect additional devices as needed.[1]

ULTIMATE VISIBILITY
- The LG UltraFine™ 4K display reaches a brightness of 500cd/m² and can express a wide range of color and contrast. You can experience vivid, lifelike images on a 4K screen, which provides a more natural representation.[2]

CONSISTENT COLOR AND CLARITY
- This 4K high-definition monitor with IPS minimizes color shift and delivers detailed, accurate images on the UltraFine™ 4K screen. Color is consistent from edge to edge.

4K DAISY CHAIN
- Easily establish a multi-monitor environment by connecting two 4K monitors and a laptop using a Thunderbolt™ 3 cable.

CLEAR COMMUNICATION AND ENTERTAINMENT
- The LG UltraFine™ 4K display has an internal webcam and responsive speakers/microphone that are perfectly suited to entertainment and communication, allowing you to watch movies, and video chat.[3]

EASY DISPLAY CONTROL WITH macOS
- Detailed control of display settings such as brightness can be done using macOS without the need to use any physical buttons.

MULTI-FUNCTION SCREEN MANAGER
- The LG Screen Manager has been optimized for macOS to provide a variety of multi-screen options. For example, it can automatically divide the screen into two to four frames, according to users' specific needs.

CONVENIENT ADJUSTABLE DISPLAY STAND
- LG UltraFine™ 4K displays have convenient height/tilt adjustment. Users can customize the display height to create a more personal, comfortable workstation, or easily wall-mount the display with the use of a VESA mount bracket.[4]

Specifications

Native Display Resolution   3840 x 2160

High Brightness   500 nits

Contrast Ratio   1,200: 1

14MS Response Time

Vesa™ Compliant Wall Mountable
