S24E650C

Introducing the curved series 23.5" desktop monitor

Companies seeking to increase the productivity of their workplace can achieve improvements by deploying the Samsung S24E650C desktop monitor. Its innovative 23.5" curved screen and small footprint is ideal for dual- or multi-monitor applications such as working with spreadsheets and data. Users benefit through increased accuracy and legibility, as well as improved image quality that reduces fatigue and eye strain. Built with approximately 30% recycled material and featuring 0.3W Off Mode power consumption, the Samsung S24E650C desktop monitor can enable your organization to realize its environmental and energy goals. DVI, HDMI, USB x 4 hub and DisplayPort connectivity provides a range of high-speed options. And a fully adjustable stand adds user comfort to this curved screen solution.

Key features

Improved comfort results in increased productivity

The curved screen combines with Eye Saver mode to increase user comfort and reduce eye fatigue, enabling users to work longer more efficiently.

Industry-leading energy and environmental considerations

The Samsung S24E650C desktop monitor is manufactured from approximately 30% recycled material, draws 0.3W during Off Mode, comes with an Eco setting that can reduce power consumption by up to 50% when in use, and is delivered in fully recyclable packaging. It can enable significant energy conservation gains.

Newly designed ergonomic adjustable stand

The monitor swivels, tilts, pivots and is height-adjustable to the most comfortable and ergonomic position, enabling users to avoid the strain that can come from inferior stands and brackets. The VESA compatible monitor can also be easily installed on a wall or separate mounting arm.

Gain fast, easy connectivity

Choice of DVI, HDMI, USB x 4 and DisplayPort options enable users to easily configure for high-speed connectivity, while the integrated cable management system keeps things simple and clutter-free.

Easy on the eyes

When Eye Saver Mode is active, blue light levels are lowered, for reduced eye strain during long work hours. Flicker-free technology adds further viewing comfort by eliminating flickering at all levels of brightness.

Speaker bar ready

The Samsung SPU10 (sold separately) is designed to be attached seamlessly to the back of compatible Samsung monitors. It adds rich stereo sound without taking up an inch of desk space.
