

## X-24E

A durable, full-featured 24" FHD display specially designed for various professional and public environments, with new gamma and black level settings for the ideal images no matter the signal quality.

The X-24E's slate of features includes newly designed adjustable gamma curve, black level, and video mode settings which help fine-tune the display's visuals to ideal levels. Also newly added is a DisplayPort 1.2 input for speedy transmission of high-resolution video. Anti-Burn-in™ technology is included with the display, which prevents image burn-in on displays that work full-time. Overall the X-24E is engineered for a lifetime of use with rigorous screening of components, a durable metal exterior and a protective NeoV™ Optical Glass for greater protection.

- > LED-backlit technology with high FHD 1920 x 1080 resolution
