User's Manual

Before operating the monitor, please read this manual thoroughly. This manual should be retained for future reference.

FCC Class B Radio Frequency Interference Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device complies with Parts 15 of the FCC Rule. Operation is subject to the following two conditions: (1) this device may not cause harmful interference; and (2) this device must accept any interference received, including interference that may cause undesired operations.

CANADA

This Class B digital apparatus meets all requirements of the Canadian Interference-Causing Equipment Regulation.

【Optional, depend on selected model】

This device complies with requirement of EMC directive 2004/108/EC with regard to Electromagnetic Compatibility, and 2006/95/EC and 93/68/EEC with regard to Low Voltage directive.

【Optional, depend on selected model】

Socket-outlet shall be near the equipment and shall be accessible.

Trademark Notice:

Hanns.G products incorporate High-Definition Multimedia Interface (HDMI™) technology.

RECYCLING INFORMATION

We, at **HANNspree** care very much about our environment protection strategy and firmly believe that it helps us have healthier earth via appropriate treatment and recycling of industrial technology devices at the end-of-life.

These devices contain recyclable materials, which can be re-decomposed and re-integrated into brand-new marvels. On the contrary, other material can be classified to hazardous and poisoned substances. We strongly encourage you to contact the provided information to recycle this product.

SAFETY NOTICE

1. The changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
2. Shielded interface cables and AC power cord, if any, must be used in order to comply with the emission limits.
3. The manufacturer is not responsible for any radio or TV interference caused by unauthorized modification to this equipment. It is the responsibilities of the user to correct such interference.
4. Only use attachments/accessories specified by the manufacturer.

WARNING:

To prevent fire or shock hazard, do not expose the monitor to rain or moisture. Dangerously high voltages are present inside the monitor. Do not open the cabinet. Refer servicing to qualified personnel only.

PRECAUTIONS

- Do not use the monitor near water, e.g. near a bathtub, washbowl, kitchen sink, laundry tub, swimming pool or in a wet basement.
- Do not place the monitor on an unstable cart, stand, or table. If the monitor falls, it can injure a person and cause serious damage to the appliance. Use only a cart or stand recommended by the manufacturer or sold with the monitor. If you mount the monitor on a wall or shelf, use a mounting kit approved by the manufacturer and follow the kit instructions.
- Slots and openings in the back and bottom of the cabinet are provided for ventilation. To ensure reliable operation of the monitor and to protect it from overheating, be sure these openings are not blocked or covered. Do not place the monitor on a bed, sofa, rug, or similar surface. Do not place the monitor near or over a radiator or heat register. Do not place the monitor in a bookcase or cabinet unless proper ventilation is provided.
- The monitor should be operated only from the type of power source indicated on the label. If you are not sure of the type of power supplied to your home, consult your dealer or local power company.
- Unplug the unit during a lightning storm or when it will not be used for long period of time. This will protect the monitor from damage due to power surges.
- Do not overload power strips and extension cords. Overloading can result in fire or electric shock.
- Never push any object into the slot on the monitor cabinet. It could short circuit parts causing a fire or electric shock. Never spill liquids on the monitor.
- Do not attempt to service the monitor by yourself; opening or removing covers can expose you to dangerous voltages and other hazards. Please refer all servicing to qualified service personnel.
- The wall socket shall be installed near the equipment and shall be easily accessible.

SPECIAL NOTES ON LCD MONITORS

The following symptoms are normal with LCD monitor and do not indicate a problem.

- Due to the nature of the fluorescent light, the screen may flicker during initial use. Turn off the Power Switch and then turn it on again to make sure the flicker disappears.
- You may find slightly uneven brightness on the screen depending on the desktop pattern you use.
- The LCD screen has effective pixels of 99.99% or more. It may include blemishes of 0.01% or less such as a missing pixel or a pixel lit all of the time.
- Due to the nature of the LCD screen, an afterimage of the previous screen may remain after switching the image, when the same image is displayed for hours. In this case, the screen is recovered slowly by changing the image or turning off the Power Switch for hours.
- If the screen suddenly flashes erratically or the backlighting fails, please contact your dealer or service center for repair. Do not attempt to repair the monitor yourself.

BEFORE YOU OPERATE THE MONITOR

FEATURES

- 54.6cm / 21.5" Wide Screen TFT Color LCD Monitor
- Crisp, Clear Display for Windows
- GP Green Product
- Ergonomic Design
- Space Saving, Compact Case Design

CHECKING THE CONTENTS OF THE PACKAGE

The product package should include the following items:

LCD Monitor

Cables and Quick Start Guide

Power Cord

Warranty Card

Quick Start Guide

VGA Cable

Audio Cable

USB Cable

POWER

POWER SOURCE:

1. Make sure that the power cord is the correct type required in your area.
2. This LCD monitor has an Internal universal power supply that allows operation in either 100/120V AC or 220/240V AC voltage area (No user adjustment is required.)
3. Connect the AC-power cord one end to your LCD monitor's AC-input socket, the other end to wall-outlet.

SETTING THE MONITOR ON THE WALL

WALL MOUNTING THE MONITOR:

1. Purchase a VESA compatible wall bracket:
VESA 100×100, 4 holes, M4, 10mm, 8kg.
2. Locate your ideal Monitor position on the wall.
3. Fix the wall bracket firmly on the wall.
4. Secure the Monitor to the bracket using the 4 mount holes on the back and center of the Monitor.

Note:

- Please read the instructions of your specific wall bracket to properly wall mount the Monitor.
- The pitch of the mounting holes is 100mm horizontally and 100mm vertically.
- The screws type required is metric: M4, 10mm length.
- The Monitor stand base can be screwed on a table or a hard surface using the hole on the back of the stand base.
- For use only with UL listed wall mount bracket.

**Installing the LCD Monitor requires special skill that should only be performed by qualified service personnel. Customers should not attempt to do the work themselves. Hanns.G bears no responsibility for improper mounting or mounting that results in accident or injury. You can ask a qualified service personnel about using an optional bracket to mount the Monitor to the wall.*

MAKING CONNECTIONS

CONNECTING TO A PC

Turn off your computer before performing the procedure below.

1. Connect one end of the VGA cable to the back of the monitor and connect the other end to the computer's VGA port.
2. Connect one end of the HDMI cable (optional) to the back of the monitor and connect the other end to the computer's HDMI port.
3. Connect one end of the Display Port cable (optional) to the back of the monitor and connect the other end to the computer's Display Port port.
4. Connect the audio cable between the monitor's audio input and the PC's audio output (green port).
5. Connect one end of the USB cable to the back of the monitor and connect the other end to the computer's USB port.
6. Plug one end of the AC power cord to the LCD monitor's AC input socket, and the other end to Wall outlet.
7. Turn on your monitor and computer.

NOTE:

The HT225HPB is available with USB connection. It is Microsoft Windows 10 HID (Human Interface Device) compatible if you use the USB touch screen interference. No additional software driver is required. Calibration is a simple process and can be invoked by running Tablet PC Settings from Control Panel and clicking the Calibrate button.

Figure.2. Connecting to a PC

3	Display Port Input	4	HDMI Input
5	VGA Input	6	LINE IN

ADJUSTING THE VIEWING ANGLE

- For optimal viewing it is recommended to look at the full face of the monitor, then adjust the monitor's angle to your own preference.
- Hold the stand so you do not topple the monitor when you change the monitor's angle.
- You are able to adjust the monitor's angle from 15° to 70°.

Figure.3. Monitor Angle

NOTES:

- Do not touch the LCD screen when you change the angle. It may cause damage or break the LCD screen.
- Be careful not to place fingers or hands near the hinges when tilting the monitor, otherwise pinching can result.

OPERATING INSTRUCTIONS

GENERAL INSTRUCTIONS

Press the power button to turn the monitor on or off. The other control buttons are located on the front panel of the monitor (See Figure 4). By changing these settings, the picture can be adjusted to your personal preferences.

- The power cord should be connected.
- Connect the Signal cable from the monitor to the VGA card.
- Press the power button to turn on the monitor. The power indicator will light up.

	Menu / Return
	▼ ◀ [-] Picture Mode adjustment button, press 3 seconds activates Automatic Adjustment.
	▲ ▶ [+] Audio Menu adjustment button, press 3 seconds activates Mute/Unmute mode.
	Input Select / Enter Selects between VGA, HDMI, DISPLAYPORT or Auto.
	Power Button

Figure.4. Control Panel Buttons

FRONT PANEL CONTROL

- **Power Button:**

Press this button to switch ON/OFF of monitor's power.

- **Power Indicator:**

Blue — Power On mode.

Orange — Power Saving mode.

- **MENU / RETURN:**

Turn the OSD menu on/off or return to the previous menu.

- **Adjust ▲▼:**

1. Adjust Picture Mode and Audio Menu when the OSD is off.
2. Navigate through adjustment icons when OSD is ON or adjust a function when function is activated.

- **Hotkeys:**

1. **Restore Brightness and Contrast defaults:**

To reset both the Brightness and Contrast to their default values, press the 【▲】 and 【▼】 keys at the same time.

2. **Change Resolution:**

For similar screen display resolutions (see table below), the screen resolution can be changed by pressing the 【□】 + 【■】 button to achieve the optimal display quality.

Resolution
640×350@70Hz ↔ 640×400@70Hz ↔ 720×400@70Hz
640×480@60Hz ↔ 720×480@60Hz
1400×1050@60Hz ↔ 1680×1050@60Hz
** The screen resolutions available will depend on the purchased model.

3. **Change Picture Mode:** [The availability of this function depends upon the selected model]

Press 【▼】 key to select one of the following modes 「Standard」, 「Game」, 「Cinema」, 「Scenery」, 「Text」. Default is 「Standard」.

4. **Power Lock / OSD Lock:**

Power Lock: Press 【□】 + 【▼】 key for 10 seconds to lock ⏻ button, repeat this step to unlock.

OSD Lock: Press 【□】 + 【▲】 key for 10 seconds to lock the OSD buttons, repeat this step to unlock.

NOTES:

- Do not install the monitor in a location near heat sources such as radiators or air ducts, or in a place subject to direct sunlight, or excessive dust or mechanical vibration or shock.
- Save the original shipping box and packing materials, as they will come in handy if you ever have to ship your monitor.
- For maximum protection, repackage your monitor as it was originally packed at the factory.

- To keep the monitor looking new, periodically clean it with a soft cloth. Stubborn stains may be removed with a cloth lightly dampened with a mild detergent solution. Never use strong solvents such as thinner, benzene, or abrasive cleaners, since these will damage the cabinet. As a safety precaution, always unplug the monitor before cleaning it.

HOW TO ADJUST A SETTINGS

Auto Image Adjust	
Auto Image Adjust	The auto adjustment function is used to optimize the 「H. Position」, 「V. Position」, 「Horizontal Size」, and 「Fine Tune」. [For VGA Input only]
Contrast/Brightness	
Contrast	Adjust the contrast value of the display according to your preference. Select 「Contrast」 option to adjust the contrast value.
Brightness	Adjust the brightness value of the display according to your preference. Select 「Brightness」 option to adjust the brightness value.
Adv. Contrast	Optimal setting for high contrast images or videos. The dark and light areas of the image are automatically detected, and the contrast is enhanced to provide a clearer, sharper image. Also, you may select the 「Adv. Contrast」 option.
ECO Mode	Allows the user to change the ECO mode. Brightness adjustment will be disabled when ECO is active.
Over Drive	Allows the user to change the Over Drive strength. Improve the quality of the motion pictures.
Input Select	
Input Select	When Input Select is pressed, change Input signal to VGA, HDMI, DISPLAYPORT or Auto.
Audio Adjust	
Volume	Select the 「Volume」 option to change the volume level. Enter the option and adjust the level. [This function applies only to models with incorporated audio.] ● By high volume, risk of hearing damage exists.
Mute	Select the 「Mute」 option to switch the function On or Off. [The availability of this function depends upon the selected model. Adjusting the volume while muted cancels Mute mode.]
Audio Input	While transferring via the HDMI port, it is recommended to set Audio Input to HDMI; if no sound is outputted, it is recommended to select Audio Input as PC, and make sure the PC audio output cable is connected to monitor's LINE IN (or AUDIO IN) port. [For HDMI Input only]

Color Adjust	
Cool Normal Warm	Adjust the color temperature value of the display according to your preference: Cool/ Normal/ Warm.
User Color	Move the cursor to the User option and select it, 1. To adjust the red, enter the 「Red」 option and adjust the level. 2. To adjust the green, enter the 「Green」 option and adjust the level. 3. To adjust the blue, enter the 「Blue」 option and adjust the level.
Picture Mode	Select the preset mode according to your preference: Standard/ Game/ Cinema/ Scenery/ Text. [The availability of this function depends upon the selected model]
Information	
Information	Display Horizontal frequency/Vertical frequency/Resolution information.
Manual Image Adjust	
Horizontal Size	Select the 「Horizontal Size」 option to reduce the vertical flicker of characters on the screen. Enter the option and adjust the level. [For VGA only]
H./V. Position	To adjust the horizontal and vertical position of the video. Select the 「H. Position」 option to shift the screen image to the left or right. Enter the option and adjust the level. [For VGA only] Select the 「V. Position」 option to shift the screen image up or down. Enter the option and adjust the level. [For VGA only]
Fine Tune	Select the 「Fine Tune」 option to reduce the horizontal flicker of characters on the screen. Enter the option and adjust the level. [For VGA only]
Sharpness	Select the 「Sharpness」 option to adjust the sharpness of the display. Set the value from 0 to 3.
Video Mode Adjust	When the aspect ratio of screen is distorted, you may make adjustments by using this function. 「Full Screen」 indicates full screen display, which does not ensure the image is shown as is or in initial scale. 「Aspect Ratio」 indicates scaling by the proportion of original images, which may cause the screen showing black bands. [The availability of this function depends

	upon the selected model]
Setup Menu	
Language Select	Select 「Language Select」 option to change the language of the OSD. Enter the option and select a language. [Reference only, the OSD Language depends on the selected model]
OSD Position	Select between horizontal and vertical OSD Position adjustment. Select 「H. Position」 option to adjust the horizontal position of the OSD. Enter the option and adjust the level. Select 「V. Position」 option to adjust the vertical position of the OSD. Enter the option and adjust the level.
OSD Time Out	Select 「OSD Time Out」 option to set the OSD time out from 5 to 60 seconds. Enter the option and adjust the level.
OSD Background	Select 「OSD Background」 option to adjust the transparency of the OSD. Enter the option and adjust the level.
Memory Recall	
Memory Recall	Select the 「Memory Recall」 option to reset to the monitor's default setting. This will erase the current settings.

PLUG AND PLAY

Plug & Play DDC2B Feature

This monitor is equipped with VESA DDC2B capabilities according to the VESA DDC STANDARD. It allows the monitor to inform the host system of its identity and, depending on the level of DDC used, communicate additional information about its display capabilities. The DDC2B is a bidirectional data channel based on the I²C protocol. The host can request EDID information over the DDC2B channel.

THIS MONITOR WILL APPEAR TO BE NON-FUNCTIONAL IF THERE IS NO VIDEO INPUT SIGNAL. IN ORDER FOR THIS MONITOR TO OPERATE PROPERLY, THERE MUST BE A VIDEO INPUT SIGNAL.

TECHNICAL SUPPORT (FAQ)

Q & A FOR GENERAL PROBLEMS

PROBLEM & QUESTION	POSSIBLE SOLUTION
Power LED is not on	<ul style="list-style-type: none">*Check if the Power Switch is in the ON position.*Power Cord should be connected.*Check OSD Menu LED setting.
No Plug & Play	<ul style="list-style-type: none">*Check if the PC system is Plug & Play compatible.*Check if the Video Card is Plug & Play compatible.*Check if any plug pins on the VGA connector are bent.
The display is too dark or too bright.	<ul style="list-style-type: none">*Adjust the Contrast and Brightness Controls.
Picture bounces or a wave pattern is present in the picture	<ul style="list-style-type: none">*Move electrical devices that may cause electrical interference.
The power LED is ON (orange) but there's no video or no picture.	<ul style="list-style-type: none">*Computer Power Switch should be in the ON position.*Computer Video Card should be snugly seated in its slot.*Make sure monitor's video cable is properly connected to the computer.*Inspect monitor's video cable and make sure none of the pins are bent.*Make sure computer is operational by hitting the CAPS LOCK key on the keyboard while observing the CAPS LOCK LED. The LED should either turn ON or OFF after hitting the CAPS LOCK key.
Missing one of the primary colors (RED, GREEN, or BLUE)	<ul style="list-style-type: none">*Inspect the monitor's video cable and make sure that none of the pins are bent.
Screen image is not centered or sized properly.	<ul style="list-style-type: none">* Adjust pixel frequency Horizontal Size and Fine Tune or press hot-key (Press 【 ▼ 】 key for 3 seconds). [For VGA Input only]
Picture has color defects (White does not look white)	<ul style="list-style-type: none">*Adjust RGB color or select color temperature.
The screen resolution needs to be adjusted	<ul style="list-style-type: none">*Use win 2000/ME/XP Right click anywhere on desktop and select Properties>Settings>Screen Resolution. Use the silder to adjust the reslution and click Apply.
No sound is outputted from monitor's built-in speaker	<ul style="list-style-type: none">*Make sure PC audio output cable is connected to screen's LINE IN port (or AUDIO IN port).*Make sure the sound volume adjustment can be clearly identified.*Make sure the System > Silence option in the monitor menu is on.

*While transferring via HDMI port but no sound is outputted, it is recommended to select AUDIO INPUT as a PC option, and make sure PC audio output cable is connected to monitor's LINE IN port(or AUDIO IN port). [For HDMI Input only]

Addendum related to Windows 7 / Windows 8 / Windows 10

When you encounter display problem under Windows 7/ Windows 8/ Windows 10, you need to do the following:

1. Make sure your PC computer (Hardware requirement) can support Windows 7/ Windows 8/ Windows 10.
2. Make sure your video card can run Windows 7/ Windows 8/ Windows 10.
3. If your video card can support Windows 7/ Windows 8/ Windows 10, need to install the latest Windows 7/ Windows 8/ Windows 10 driver of your video card.

Suggest to do the following:

1. Install the latest Windows 7/ Windows 8/ Windows 10 video driver of your video card.
2. Try to use the recommended display resolution that is supported by the monitor.
3. If the recommended display resolution is not working, try the second recommended display resolution.
