

AG251FZ2

24.5 inch (62.2 cm) LCD MONITOR

Super-smooth and responsive

Shadow Control

Bring the battle out of the shadows with Shadow Control! Brighten dark areas or sink them back into blackness on the fly, without affecting the rest of the display.

FreeSync Premium

Achieve the highest framerate and smoothest display possible with AMD Free-Sync Premium. Leave your opponents in your smoothly rendered dust.

Lowblue Light

AOC Lowblue Light protects you from harmful blue light which, during long sessions, has been shown to cause eye strain, headaches, and sleeping disorders. Our Lowblue Light feature reduces the harmful wavelengths emitted without sacrificing color composition, setting the experience free from the worry of eye damage.

0.5ms Response Time

A pixel response time of 0.5ms MPRT means speed without the smear for an enhanced experience. Fast-moving action and dramatic transitions will be rendered smoothly without the effects of ghosting.
