

LENOVO C27

ENTER THE PICTURE WITH A QUALITY MONITOR

GEAR UP YOUR HOME FOR WORK, STUDY AND PLAY

For users ready to take on the world, either through their first job, home learning or all-out gaming, Lenovo C27-35 is essential hardware they can equip themselves with. Its 27-inch Vertical Alignment panel displays fine print in documents or details in uploaded art homework projects at a full HD resolution of 1920 x 1080. With its increased screen size, it shows them 28.7% larger than on a 23.8" monitor. And, to remove distractions while editing long reports or writing an assignment for class, it sits inside a NearEdgeless frame that makes the picture seem to float.

Outside of work and study, it performs just as well as with entertainment. You won't be disrupted by image tearing and stuttering because C27-35 comes with AMD FreeSync™*** on board. And with a response time of just 4ms in extreme mode, even fast-paced action never lags. But whether it's a marathon gaming session, a long video lecture or a late night crunching numbers, the owners of this monitor can carry on in comfort thanks to TÜV Rheinland eye comfort-certified technology that reduces eye-straining blue wavelengths and cuts out screen flicker.

Plugging into a PC, laptop or gaming console is effortless as C27-35 connects easily by HDMI or VGA. Sound adds dimension through its Audio Port, letting users listen in through headphones or a speaker system. No matter the task, it can be done clutter-free as all those cables are handled neatly out of the way through an integrated cable management system in the stand that tilts the screen to always be at the most comfortable viewing angle. And for anyone wanting to clear their desk completely, C27-35 can be easily mounted on the wall with its 100 mm x 100 mm VESA wall mount-ready back panel.

FEATURES OF LENOVO C27-35 MONITOR

Designed to perform

A bigger canvas for home productivity, learning and entertainment with this 27-inch Vertical Alignment display designed to deliver a wider viewing angle up to 178°. It shows off every fine detail in full 1920 x 1080 HD resolution so that long-copy documents are easier to read and edit. Spreadsheets are easier to navigate. Every crucial detail in a homework assignment shows in fine resolution. Game graphics display the way they were meant to be seen. And all within a 3-sided NearEdgeless frame that maximizes screen size and lets the image "float".

Seamless viewing experience

C27-35 makes the best of a home working environment with a viewing experience that helps productivity and performance and maximizes comfort. AMD FreeSync™*** technology eliminates disruptive image tearing for better entertainment. And with TÜV Rheinland eye comfort certification, the monitor lets users work, learn or play for extended periods while guarding their vision against eye strain and takes screen flicker right out of the picture.

Connectivity & convenience built-in

No more complex setups between equipment. C27-35 plugs and plays with PCs, laptops, phones and gaming consoles through HDMI and VGA. Simply play. Or work. Or study. And Audio Out delivers quality sound output to headphones or speakers to make video calls, online course videos and gameplay come alive. Optimum viewing angle is assured through the tilt stand that also tidies cables away. And for an extra convenient and comfort option, the monitor has 100 mm x 100 mm VESA mounting capability.
