Technical Support

If a problem arises with your product and no solution can be obtained from the user's manual, please contact your place of purchase or local distributor. Alternatively, please visit https://www.msi.com/support/ for further guidance.

Safety Instructions

- Read the safety instructions carefully and thoroughly.
- All cautions and warnings on the device or user's manual should be noted.
- Refer servicing to qualified personnel only.

Keep the User's Guide that comes with the package for future reference.

To prevent fire or shock hazard, keep this device away from humidity and high temperature.

Lay this device on a reliable flat surface before setting it up.

- Make sure that the power voltage is within its safety range and has been adjusted properly to the value of 100~240V before connecting the device to the power outlet. Do not disable the protective earth pin from the plug. The device must be connected to an earthed mains socket-outlet.
- Always disconnect the power cord or switch the wall socket off if the device would be left unused for a certain time to achieve zero energy consumption.

The ventilator on the device is used for air convection and to prevent the device from overheating. Do not cover the ventilator.

Do not leave the device in an unconditioned environment with a storage temperature above 60° C or below -20° C, which may damage the device.

NOTE: The maximum operating temperature is around 40°C.

When cleaning the device, be sure to remove the power plug. Use a piece of soft cloth rather than industrial chemical to clean the device. Never pour any liquid into the opening; that could damage the device or cause electric shock.

Place the power cord in a way that people are unlikely to step on it. Do not place anything on the power cord.

Always keep strong magnetic or electrical objects away from the device.

If any of the following situations arises, get the device checked by service personnel:

- The power cord or plug is damaged.
- Liquid has penetrated into the device.
- The device has been exposed to moisture.
- The device does not work well or you can not get it work according to user's manual.
- The device has dropped and damaged.
- The device has obvious sign of breakage.

Green Product Features

- Reduced energy consumption during use and stand-by
- Limited use of substances harmful to the environment and health
- Easily dismantled and recycled
- Reduced use of natural resources by encouraging recycling
- Extended product lifetime through easy upgrades
- Reduced solid waste production through take-back policy

Environmental Policy

- The product has been designed to enable proper reuse of parts and recycling and should not be thrown away at its end of life.
- Users should contact the local authorized point of collection for recycling and disposing of their end-of-life products.
- Visit the MSI website and locate a nearby distributor for further recycling information.
- Users may also reach us at gpcontdev@msi.com for information regarding proper disposal, take-back, recycling, and disassembly of MSI products.
- ★ Warning! Overuse of screens is likely to affect eyesight.
- ★ Recommendations:
 - 1. Take a 10-minute break for every 30 minutes of screen time.
 - Children under 2 years of age should have no screen time. For children aged 2 years and over, screen time should be limited to less than one hour per day.

CE Conformity

This device complies with the requirements set out in the Council Directive on the Approximation of the Laws of the Member States relating to Electromagnetic Compatibility (2014/30/EU), Low-voltage Directive (2014/35/EU), ErP Directive (2009/125/EC) and RoHS directive (2011/65/EU).

This product has been tested and found to comply with the harmonized standards for Information Technology Equipment published under Directives of Official Journal of the European Union.

FCC-B Radio Frequency Interference Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the measures listed below:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/television technician for help.

Notice 1

The changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Notice 2

Shielded interface cables and AC power cord, if any, must be used in order to comply with the emission limits.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- 1. this device may not cause harmful interference, and
- this device must accept any interference received, including interference that may cause undesired operation.

WEEE Statement

Under the European Union ("EU") Directive on Waste Electrical and Electronic Equipment, Directive 2002/96/EC, which takes effect on August 13, 2005, products of "electrical and electronic equipment" cannot be discarded as municipal waste anymore and manufacturers of covered electronic equipment will be obligated to take back such products at the end of their useful life.

Chemical Substances Information

In compliance with chemical substances regulations, such as the EU REACH Regulation (Regulation EC No. 1907/2006 of the European Parliament and the Council), MSI provides the information of chemical substances in products at:

https://www.msi.com/html/popup/csr/evmtprtt_pcm.html

RoHS Statement

Japan JIS C 0950 Material Declaration

A Japanese regulatory requirement, defined by specification JIS C 0950, mandates that manufacturers provide material declarations for certain categories of electronic products offered for sale after July 1, 2006.

https://www.msi.com/html/popup/csr/cemm_jp.html https://tw.msi.com/html/popup/csr_tw/cemm_jp.html

India RoHS

This product complies with the "India E-waste (Management and Handling) Rule 2011" and prohibits use of lead, mercury, hexavalent chromium, polybrominated biphenyls or polybrominated diphenyl ethers in concentrations exceeding 0.1 weight % and 0.01 weight % for cadmium, except for the exemptions set in Schedule 2 of the Rule.

Turkey EEE Regulation

Conforms to the EEE Regulations of the Republic Of Turkey

Ukraine Restriction of Hazardous Substances

The equipment complies with requirements of the Technical Regulation, approved by the Resolution of Cabinet of Ministry of Ukraine as of December 3, 2008 № 1057, in terms of restrictions for the use of certain dangerous substances in electrical and electronic equipment.

Vietnam RoHS

As from December 1, 2012, all products manufactured by MSI comply with Circular 30/2011/TT-BCT temporarily regulating the permitted limits for a number of hazardous substances in electronic and electric products.

Getting Started

This chapter provides you with the information on hardware setup procedures. While connecting devices, be careful in holding the devices and use a grounded wrist strap to avoid static electricity.

IMPORTANT

- The illustrations are for reference only. Your monitor may vary in appearance.
- Do not use any sharp objects on the monitor.

Package Contents

- Monitor
- 2. Stand
- 3. Stand Base with Screw
- 4. Power Adapter & Power Cord
- 5. HDMI Cable
- 6. DisplayPort Cable
- 7. Y-type Audio Cable (to enable the audio jacks on the monitor)
- 8. USB Upstream Cable (to enable the USB ports on the monitor)
- 9. Quick Start Guide
- 10. Warranty Card
- * Contact your place of purchase or local distributor if any of the items is damaged or missing.
- * Package contents may vary by country.

Installing the Monitor Stand

- 1. Fit the stand to the monitor.
- 2. Push down the latch to lock the stand in place.
- 3. Connect the base to the stand and tighten the base screw to secure the base.

IMPORTANT

Place the monitor on a soft, protected surface to avoid scratching the display panel.

Adjusting the Monitor

This monitor is designed to maximize your viewing comfort with its adjustment capabilities such as tilt, lift and swivel.

IMPORTANT

Avoid touching the display panel when adjusting the monitor.

Monitor Overview

- 3 Power Jack
- 4 HDMI Port HIGH-DEFINITION MULTIMEDIA INTERFACE
- 6 HDMI Port HIGH-DEFINITION MULTIMEDIA INTERFACE
- 6 DisplayPort

Ø

USB Type B Upstream Port

For USB Upstream Cable.

IMPORTANT

Check the package for USB Upstream Cable and connect it to the PC and monitor. Once this cable is connected, the USB Type A Downstream Ports on the monitor will be ready for use.

8

Combo Audio Jack

For Y-type Audio Cable.

IMPORTANT

Check the package for Y-type Audio Cable and connect it to the PC and monitor. Once this cable is connected, the audio jacks on the monitor will be ready for use.

9

Headphone Jack

1

Microphone Jack

1

USB Type A Downstream Port

P

USB Type A Downstream Port

Kensington Lock

Connecting the Monitor to PC

- 1. Turn off your computer.
- 2. Connect the HDMI/DisplayPort cable from the monitor to your computer.
- 3. Assemble the monitor power adapter & power cord. (Figure A)
- 4. Connect the power adapter to the monitor power jack. (Figure B)
- 5. Plug the power cord into the electrical outlet. (Figure C)
- 6. Turn on the monitor. (Figure D)
- 7. Select your Input Source at OSD menu and power on the computer.

Wall Mounting (Optional)

- 1. Release the base screw and detach the base.
- 2. Pull up the latch to unlock the stand.
- 3. Disassemble the stand.
- 4. Remove the pre-installed screws for VESA mount.
- 5. Install the wall mounting bracket to the monitor.
- 6. Follow the wall mounting kit instructions to mount the monitor onto the wall.

IMPORTANT

- Place the monitor on a soft, protected surface to avoid scratching the display panel.
- When mounting this monitor to the wall, be sure to keep it at a proper distance from the wall to ensure effective ventilation.

OSD Setup

This chapter provides you with essential information on OSD Setup.

IMPORTANT

All information is subject to change without prior notice.

Navi Key

The monitor comes with a Navi Key, a multi-directional control that helps navigate the On-Screen Display (OSD) menu.

The Navi Key default settings are as follows.

Navi Key	Hot Key		Basic Operations		
	(When OSD menu is 0	OFF)	(When OSD menu is ON)		
Middle Button	OSD Main Menu		 Entering submenus Confirming a selection or setting 		
Up	Game Mode	 Press Middle Button to confirm selection and exit. Press Up and Down Buttons to adjust. Press Left Button to cancel preview and exit without applying mode effect. 	 Selecting function menus and items Allowing upward adjustment in function values 		
Down ()	Screen Assistance	 Press Middle Button to confirm selection and exit. Press Up and Down Buttons to adjust. Press Left Button to cancel preview and exit. 	 Selecting function menus and items Allowing downward adjustment in function values 		
Left	Alarm Clock	 Press Middle Button to confirm selection and exit. Press Up and Down Buttons to select. Press Left Button to cancel preview and exit. 	 Selecting function menus and items Exiting the current menu 		
Right	Input Source	 Press Middle Button to confirm selection and exit. Press Up and Down Buttons to select. Press Left Button to exit. 	 Selecting function menus and items Entering submenus 		

Users may enter the OSD Menu to customize their own Navi Key Hot Keys. More Hot Key options are as below.

Navi Key Hot	Key Options	Operations	
Brightness	55 x	 Press Middle Button to save value and exit. Press Up and Down Buttons to adjust. Press Left Button to cancel preview and exit. Brightness default is 80. 	
PIP/PBP	B ***	 Press Middle Button to confirm selection and exit. Press Up and Down Buttons to adjust. Press Left Button to cancel preview and exit. 	
Refresh Rate	elon en or en e	 Press Middle Button to confirm selection and exit. Press Right Button to turn on and Left Button to turn off the Refresh Rate. 	

OSD Setup via Navi Key

Press the Middle button of Navi Key to launch the On-Screen Display (OSD) main menu. Use the Up, Down, Left, Right buttons to tune the desired function menus to suit your personal preferences.

> GAMING

1st Level Menu	2nd/3rd Level Menu	Description	
Game Mode	User	Default mode. All items can be adjusted by users.	
	FPS	All items can be adjusted by users.	
	Racing	All items can be adjusted by users.	
	RTS	All items can be adjusted by users.	
	RPG	All items can be adjusted by users.	
	· ·	select and preview mode effects.	
	■ Press the Middle Button to	confirm and apply your mode type.	
Black Tuner	0-20	Use Up or Down Button to adjust the value.	
		 This function improves background brightness and is recommended for FPS games. 	
Response Time	Normal	■ Users can adjust Response Time in any Mode.	
		■ When Response Time is set to Fastest with at least	
	Fast	75Hz Screen Refresh Rate, Anti Motion Blur will be automatically enabled.	
		■ When Screen Refresh Rate is lower than 75HZ,	
	Fastest	"Fastest" will be grayed out.	
		This function is recommended for FPS and Racing games.	

1st Level Menu	2nd/3rd Level Menu		Description		
Anti Motion Blur	(OFF)		Brightness cannot be adjusted when Anti Motion Blur is set to ON.		
(ON))	When Response Time is set to Fastest with at least 75Hz Screen Refresh Rate, Anti Motion Blur will be automatically enabled.		
			When Screen Refresh Rate is lower than 75HZ, Anti Motion Blur cannot be enabled and Response Time cannot be set to Fastest.		
			■ When Anti Motion Blur is enabled, HDCR cannot be enabled and will be grayed out.		
			This function is recommended for cinema, FPS and Racing games.		
			When FreeSync is enabled, Anti Motion Blur will be grayed out.		
Zero Latency	(OF	F)	Zero Latency default is ON.		
	(ON	•	Zero Latency helps to reduce the signal throughput timing and supports QHD only.		
Refresh Rate	Location	Left Top	■ Users can adjust Refresh Rate in any Mode.		
		Right Top	■ Default Refresh Rate Location is Left Top. Location		
		Left Bottom	is adjustable in OSD Menu. Press the Middle		
		Right Bottom	Button to confirm and apply your Refresh Rate Location.		
	OFF		 This monitor follows and works at the Operating 		
	ON		System's preset Screen Refresh Rate.		
Alarm Clock	F	Left Top	Users can adjust Alarm Clock in any Mode.		
		Right Top	After setting the time, press the Middle Button to		
		Left Bottom	activate the timer.		
	Right Bottom		 Default Alarm Clock Location is Left Top. Users can select their own location. 		
	OFF				
	15:00	00:01~99:59			
	30:00				
	45:00				
	60:00				
Screen	None		 Users can adjust Screen Assistance in any Mode. 		
Assistance + + + + + + + + + + + + + + + + + + +		;)	Screen Assistance default is None.		
FreeSync (OFF)			 FreeSync prevents screen tearing. HDMI default is ON but grayed out (cannot be changed). DisplayPort default is ON and can be adjusted ON/ OFF in any mode, any resolution, any input source and any screen refresh rate. When FreeSync is enabled, Anti Motion Blur will be 		
			grayed out.		

> Professional ∆

1st Level Menu	2nd Level Menu	Description			
Pro Mode	User	Default mode. All items can be adjusted by users.			
	Reader	All items can be adjusted by users.			
	Cinema	All items can be adjusted by users.			
	Designer	All items can be adjusted by users.			
	■ Use Up or Down Button to select and preview mode effects.				
	 Press the Middle B 	utton to confirm and apply your mode type.			
Eye Saver	(OFF)	 Eye Saver protects your eyes against blue light. When enabled, Eye Saver adjusts the screen color temperature to a more yellow glow. 			
	(ON)	Users can adjust Eye Saver in any Mode.			
		When Pro Mode is set to Reader, it is mandatory to enable Eye Saver.			
HDCR	(OFF)	 HDCR default is OFF. Users can adjust HDCR in any Mode. 			
	(ON)	 HDCR enhances image quality by increasing the contrast of images. 			
		When HDCR is set to ON, Brightness will be grayed out.			
		 HDCR and Anti Motion Blur cannot be enabled simultaneously. 			
		When HDCR is enabled, Anti Motion Blur cannot be enabled and Response Time cannot be set to Fastest.			
Anti Motion Blur	(OFF)	Brightness cannot be adjusted when Anti Motion Blur is set to ON.			
	(ON)	When Response Time is set to Fastest with at least 75Hz Screen Refresh Rate, Anti Motion Blur will be automatically enabled.			
		When Screen Refresh Rate is lower than 75HZ, Anti Motion Blur cannot be enabled and Response Time cannot be set to Fastest.			
		When Anti Motion Blur is enabled, HDCR cannot be enabled and will be grayed out.			
		This function is recommended for cinema, FPS and Racing games.			
		When FreeSync is enabled, Anti Motion Blur will be grayed out.

Troubleshooting

The power LED is off.

- Press the monitor power button again.
- Check if the monitor power cable is properly connected.

No image.

- Check if the computer graphics card is properly installed.
- Check if the computer and monitor are connected to electrical outlets and are turned on.
- Check if the monitor signal cable is properly connected.
- The computer may be in Standby mode. Press any key to activate the monitor.

The screen image is not properly sized or centered.

Refer to Preset Display Modes to set the computer to a setting suitable for the monitor to display.

No Plug & Play.

- Check if the monitor power cable is properly connected.
- Check if the monitor signal cable is properly connected.
- Check if the computer and graphics card are Plug & Play compatible.

The icons, font or screen are fuzzy, blurry or have color problems.

- Avoid using any video extension cables.
- Adjust brightness and contrast.
- Adjust RGB color or tune color temperature.
- Check if the monitor signal cable is properly connected.
- Check for bent pins on the signal cable connector.

The monitor starts flickering or shows waves.

- Change the refresh rate to match the capabilities of your monitor.
- Update your graphics card drivers.
- Keep the monitor away from electrical devices that may cause electromagnetic interference (EMI).
