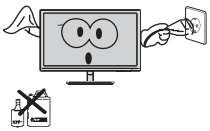
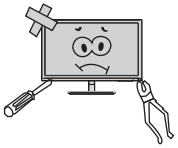
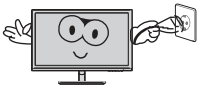
Optix G24 series

MSI GAMING MONITOR User's Manual

I.Safety Prevention Measures

			Please always place this device on a stable surface; otherwise, it may fall and be damaged.	The altitude and the tropical environment the adapter fits depend on which adapter is used for the device. The rating plate on the back of the device with the above warning sign indicates that this product is applicable for the safe use of the region with altitude of 2,000m and below.	Do not hold the plug with wet hand; otherwise, electric shock may occur. Make sure the plug has a good touch because poor touch may cause fire.	Do not use a broken power plug nor keep a power cord near heat source; otherwise, electric shock or fire may occur.
			






When cleaning the device, be sure to remove the power plug, use a piece of soft cloth rather than industrial chemical to clean the device, be sure not to let water enter the device.	Do not disassemble this device without permission. In case of failure, be sure to contact a professional servicing person to fix it. The unauthorized disassembly of this device may result in electric shock or fire.	In case of rare smell or noise out of this device, be sure to immediately cut off the power supply and ask a professional servicing person to fix the problem.	When this device is idle for long time, be sure to power it off; otherwise, electric shock or fire may occur.

Note:
The device with AC switch may use such AC switch as cut-off component.
The device without AC switch may use power plug or coupler as cut-off component.
In case of the normal use of the equipment, make sure the cut-off component can be accessed easily.

II.Installation Instructions

1.Accessories

Power cord

Base/Stand

Signal cable

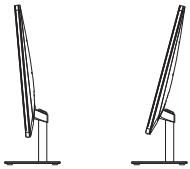
Warranty card

User manual

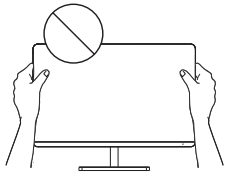
(The above pictures are for illustration only and the physical accessories shall govern.)

2. Angle Adjustment

2.1 The screen can be adjusted by inclining forward and backward; however, the specific adjustment depends on the specific model of the device. Generally, it may be inclined 5±2°forward and 15±2° backward.

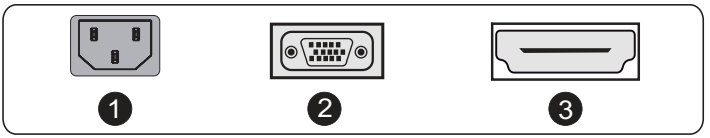


2.2 When adjusting the angle of the monitor, be sure not to touch or press the area of the screen.

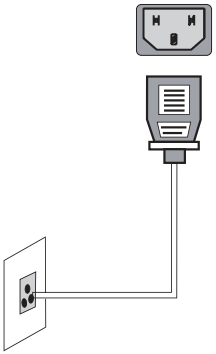


(The above pictures are for illustration only and the physical accessories shall govern.)

III. Connect the Monitor to PC



⚠ Before connecting the LCD monitor to the PC, please power down the PC and the monitor.



Model with inbuilt power supply

* Warning: Always use the power cord of standard configuration.

❶ Power Plug
Connect the power cord of the monitor into the POWER port in the back of the monitor.

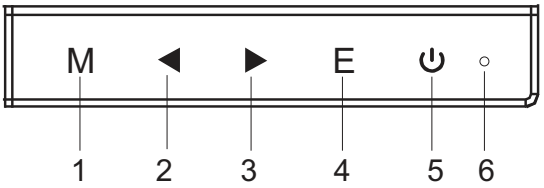
❷ VGA Port
Connect the VGA cable into the VGA IN port in the back of the monitor (this needs the support of the monitor).

❸ HDMI Port
Connect the HDMI cable into the HDMI IN port into the back of the monitor (this needs the support of the monitor).

(The above pictures are for illustration only and the physical accessories shall govern.)

IV. User Setup

1. Schematic Diagram of Keys



2. Description of Keys' Functions

1.	M	Pops up the menu/Backs to the previous menu (in case of main menu, exits from the whole menu).
2.	◀	When the menu is activated, used as the left function selection key, and decreases progressively the value of the progress bar; when the menu is inactivated, used as the specified shortcut mode hot key (for sighting device).
3.	▶	When the menu is activated, used as the right function selection key, and increases progressively the value of the progress bar; when the menu is inactivated, used as the specified shortcut mode hot key (FPS/RTS mode).
4.	E	If the menu is activated, chooses the corresponding function.
5.	⏻	Power switch: Powers on/off the monitor.
6.	LED indicator light	Blue: in normal switch-on state; flickering in blue: in power-saving state.

Note: The physical keys of the specific model shall govern.

V. Operation Menu (OSD) Function Descriptions
