Revision

V1.0, 2021/06

Getting Started

This chapter provides you with the information on hardware setup procedures. While connecting devices, be careful in holding the devices and use a grounded wrist strap to avoid static electricity.

Package Contents

Monitor	Summit MS321UP			
	Quick Start Guide			
Documentation	Registration Card			
	Warranty Card (Optional)			
	Stand with Screw(s)			
	Stand Base with Screw(s)			
	Stand Cover			
Accessories	Screw(s) for Wall Mount Bracket(s)			
	Cord Sleeve			
	Monitor Hood (Optional)			
	Power Cord			
	HDMI Cable (Optional)			
	DisplayPort Cable (Optional)			
Cables	USB Type-C Cable (Optional)			
	USB Upstream Cable (for USB Type-B Upstream Port) (Optional)			
	Y-type Audio Cable (for Combo Audio Jack) (Optional)			

Important

- Contact your place of purchase or local distributor if any of the items is damaged or missing.
- Package contents may vary by country.
- The included power cord is exclusively for this monitor and should not be used with other products.

Installing the Monitor Stand

Important

- Place the monitor on a soft, protected surface to avoid scratching the display panel.
- Avoid pressing the monitor when installing the monitor stand.
- Do not use any sharp objects on the panel.
- The screw holes for installing the stand bracket can also be used for wall mount. Please contact your dealer for proper wall mount kit.

- 1. Leave the monitor in its protective foam packaging. Align and place the tabs on the top edge of the stand bracket into the slots on the back of the monitor.
- 2. Tighten the stand bracket with screws.
- 3. Connect the base to the stand and tighten the base screw to secure the base.
- **4.** Align and push the stand cover towards the stand bracket until it locks in place.
- **5.** Make sure the stand assembly is properly installed before setting the monitor upright.

Installing the Monitor Hood (Optional)

- 1. Unfold and align the hood to the monitor.
- 2. The magnetic hood will be attached to monitor automatically.

Adjusting the Monitor

This monitor is designed to maximize your viewing comfort with its adjustment capabilities.

Important

Avoid touching the display panel when adjusting the monitor.

Monitor Overview

0	Масго Кеу
	To activate MSI Productivity Intelligence OSD.
2	Power Button
3	Light Sensor
6	Microphone
6	Navi Key
6	Kensington Lock
9	Power Jack
8	
9	DisplayPort
0	USB Type-C Port This port supports DisplayPort Alternate (DP Alt) Mode and up to 5V/3A power delivery.
0	USB 3.2 Gen 1 Type B Upstream Port
	For USB Upstream Cable.
	To Monitor
	Check the package for USB Upstream Cable and connect it to the PC and monitor. Once this cable is connected, the USB Type-A Downstream Ports on the monitor will be ready for use.
Ð	USB 3.2 Gen 1 Type A Port
ß	Combo Audio Jack
	For Y-type Audio Cable.
	Important
	The optional Y-type Audio Cable can connect the PC and monitor. Once this cable is connected, the audio jacks on the monitor will be ready for use.

	Card Reader
Ð	Microphone Jack
ß	Headphone Jack
Ð	Cord Sleeve

Important

All USB ports do not support recharging function under power saving modes.

Connecting the Monitor to PC

- 1. Turn off your computer.
- 2. Connect the video cable from the monitor to your computer.
- 3. Connect the power cord to the monitor power jack. (Figure A)
- 4. Plug the power cord into the electrical outlet. (Figure B)
- 5. Turn on the monitor. (Figure C)
- 6. Power on the computer and the monitor will auto detect the signal source.

OSD Setup

This chapter provides you with essential information on OSD Setup.

Important

All information is subject to change without prior notice.

Navi Key

The monitor comes with a Navi Key, a multi-directional control that helps navigate the On-Screen Display (OSD) menu.

Up/Down/Left/Right:

- selecting function menus and items
- adjusting function values
- entering into/exiting from function menus

Middle:

- launching the On-Screen Display (OSD)
- entering submenus
- confirming a selection or setting

Hot Key

- Users may enter into preset function menus by moving the Navi Key up, down, left or right when the OSD menu is inactive.
- Users may customize their own Hot Keys to enter into different function menus.

OSD Menus

11151	3840x2160 60 HZ HDR :	On	Eco	HDMI 1
1 10	Auto Brightness Control		√ OFF	
Professional	Ambient RGB Light	100	Auto

Important

The following settings will be grayed out when HDR signals are received:

- Low Blue Light
- Brightness
- Contrast
- Color Temperature
- Auto Brightness Control
- Ambient RGB Light
- PIP/PBP
- Gray Level
- Local Dimming
- Gamma
- Saturation
- Hue
- Zoom In
- Mode

1st Level Menu	2nd/3rd Leve	el Menu	Description
Auto Brightness Control	OFF Auto		 Through the internal Light Sensor and AI (Artificial Intelligence) algorithm, this function
	Customize	0-100	detects the ambient light and automatically sets the monitor to optimal brightness for users.
			• When Auto Brightness Control is set to Auto or Customize, the Brightness of OSD will be grayed out.
			• Customize allows users to adjust the auto brightness curve.
Ambient RGB Light	OFF		• Through the internal RGB Sensor and AI algorithm, this function
Light	ON		detects the ambient color temperature and presents the best light effects synced to the environment.
			• The Contrast and Color Temperature of OSD will be grayed out while this function is enabled.
Sound Tune	OFF		• Through the internal digital array microphone and AI algorithm,
	ON		this function enables Active Noise Cancellation (ANC) technology.
			• For Sound Tune to properly work, the computer needs to be connected to the USB Upstream port of the monitor.
KVM	Auto		Auto allows the monitor to
	Upstream		automatically switch between USB input sources, such as keyboards,
	Туре С		mice or other USB devices.Users can also designate
			Upstream port or USB Type-C as the only USB signal source.

P.I. (Productivity Intelligence)

Professional

1st Level Menu	2nd/3rd Level Menu		Description

1st Level Menu	2nd/3rd Level Menu		Description
Zoom In	Location	Center	• The center point will zoom in when
		Up-Left	this setting is enabled. Users can select their Location for Zoom In.
		Up-Right	Design Assistance and Zoom In can be enabled at the same time
		Down-Left	• PIP/PBP and FreeSync should be set
		Down-	to OFF while Zoom In is enabled.
		Right	• Screen Size 1:1 should be set to Auto
	ON		while Zoom In is enabled.
	OFF		
Screen Size	Auto 4:3		• Users can adjust Screen Size in any
			mode, any resolution and any screen refresh rate.
	16:9		• If 1:1 is selected then PIP or PBP is
	1:1		enabled, Screen Size should be reset to Auto.
FreeSync	OFF		• FreeSync prevents screen tearing.
	ON		• Enabling FreeSync will affect PIP/ PBP, Screen Size 1:1 and Zoom In.

Image

1st Level Menu	2nd/3rd Level Menu	Description
Brightness	0-100	• Default is 70.
Contrast	0-100	• Default is 70.
Sharpness	0-5	Sharpness improves clarity and details of images.Default is 0.
Gray Level	0-20	• Default is 10.
Image	OFF	Image Enhancement enhances
Enhancement	Weak	image edges to improve their acutance.
	Medium	
	Strong	
	Strongest	

1st Level Menu	2nd/3rd Level N	lenu	Description
Low Blue Light	OFF ON		 Low Blue Light protects your eyes against blue light. When enabled, Low Blue Light adjusts the screen color temperature to a more yellow glow. When Mode is set to Anti-Blue, it is mandatory to enable Low Blue Light.
Local Dimming	OFF ON		 This setting helps enhance the overall picture quality of dark scenes by dimming backlight zones to improve the contrast ratio in dark scenes. When this setting is set to ON, Brightness will be grayed out and Auto Brightness Control will be set to OFF. Enabling Local Dimming will affect visibility of mini OSD, such as Info. On Screen, Refresh Rate, Alarm Clock, Design Assistance, etc.
Color Temperature	5000K 5500K 6500K 7500K 9300K 10000K Customization	R (0-100) G (0-100) B (0-100)	 Use Up or Down Button to select and preview effects. Press the Middle Button to confirm and apply your selection.
Gamma	1.8 2.0 2.2 2.4 2.6	1	 Adjust this setting when the coloration of an original item is not accurately reflected in the monitor.

1st Level Menu	2nd/3rd Level Menu	Description
Saturation	R (0-100)	• Default is 50.
	G (0-100)	
	B (0-100)	
	C (0-100)	
	M (0-100)	
	Y (0-100)	
Hue	R (0-100)	• Default is 50.
	G (0-100)	
	B (0-100)	
	C (0-100)	
	M (0-100)	
	Y (0-100)	

Input Source

1st Level Menu	2nd Level Menu	Description		
HDMI1		• Users can adjust Input Source in any mode.		
HDMI2				
DP				
Туре С				
Auto Scan	OFF	• Users can use the Navi Key to select Input		
	ON	Source at below status:		
		 While "Auto Scan" is set to "OFF" with the monitor at power saving mode; 		
		 While "No Signal" message box is shown on the monitor. 		

PIP/PBP

1st Level Menu	2nd/3rd Leve	l Menu	Description
OFF			• Enabling PIP (Picture in Picture)
PIP	Source	HDMI1	or PBP (Picture by Picture) will affect FreeSync, Response Time,
		HDMI2	Screen Size 1:1 and Zoom In.
		DP	Display Switch allows users to
		Туре С	switch between primary and secondary input sources.

Troubleshooting

The power LED is off.

- Press the monitor power button again.
- Check if the monitor power cable is properly connected.

No image.

- Check if the computer graphics card is properly installed.
- Check if the computer and monitor are connected to electrical outlets and are turned on.
- Check if the monitor signal cable is properly connected.
- The computer may be in Standby mode. Press any key to activate the monitor.

The screen image is not properly sized or centered.

• Refer to Preset Display Modes to set the computer to a setting suitable for the monitor to display.

No Plug & Play.

- Check if the monitor power cable is properly connected.
- Check if the monitor signal cable is properly connected.
- Check if the computer and graphics card are Plug & Play compatible.

The icons, font or screen are fuzzy, blurry or have color problems.

- Avoid using any video extension cables.
- Adjust brightness and contrast.
- Adjust RGB color or tune color temperature.
- Check if the monitor signal cable is properly connected.
- Check for bent pins on the signal cable connector.

The monitor starts flickering or shows waves.

- Change the refresh rate to match the capabilities of your monitor.
- Update your graphics card drivers.
- Keep the monitor away from electrical devices that may cause electromagnetic interference (EMI).

Safety Instructions

- Read the safety instructions carefully and thoroughly.
- All cautions and warnings on the device or User Guide should be noted.
- Refer servicing to qualified personnel only.

Power

- Make sure that the power voltage is within its safety range and has been adjusted properly to the value of 100~240V before connecting the device to the power outlet.
- If the power cord comes with a 3-pin plug, do not disable the protective earth pin from the plug. The device must be connected to an earthed mains socket-outlet.
- Please confirm the power distribution system in the installation site shall provide the circuit breaker rated 120/240V, 20A (maximum).
- Always disconnect the power cord or switch the wall socket off if the device would be left unused for a certain time to achieve zero energy consumption.
- Place the power cord in a way that people are unlikely to step on it. Do not place anything on the power cord.
- If this device comes with an adapter, use only the MSI provided AC adapter approved for use with this device.

Battery

Please take special precautions if this device comes with a battery.

- Danger of explosion if battery is incorrectly replaced. Replace only with the same or equivalent type recommended by the manufacturer.
- Avoid disposal of a battery into fire or a hot oven, or mechanically crushing or cutting of a battery, which can result in an explosion.
- Avoid leaving a battery in an extremely high temperature or extremely low air pressure environment that can result in an explosion or the leakage of flammable liquid or gas.
- Do not ingest battery. If the coin/button cell battery is swallowed, it can cause severe internal burns and can lead to death. Keep new and used batteries away from children.

European Union:

Batteries, battery packs, and accumulators should not be disposed of as unsorted household waste. Please use the public collection system to return, recycle, or treat them in compliance with the local regulations.

Taiwan:

廢電池請回收

For better environmental protection, waste batteries should be collected separately for recycling or special disposal.

California, USA:

The button cell battery may contain perchlorate material and requires special handling when recycled or disposed of in California. For further information please visit: https://dtsc.ca.gov/perchlorate/

Environment

- To reduce the possibility of heat-related injuries or of overheating the device, do not place the device on a soft, unsteady surface or obstruct its air ventilators.
- Use this device only on a hard, flat and steady surface.
- To prevent the device from tipping over, secure the device to a desk, wall or fixed object with an anti-tip fastener that helps to properly support the device and keep it safe in place.
- To prevent fire or shock hazard, keep this device away from humidity and high temperature.
- Do not leave the device in an unconditioned environment with a storage temperature above 60°C or below -20°C, which may damage the device.
- The maximum operating temperature is around 40°C.
- When cleaning the device, be sure to remove the power plug. Use a piece of soft cloth rather than industrial chemical to clean the device. Never pour any liquid into the opening; that could damage the device or cause electric shock.
- Always keep strong magnetic or electrical objects away from the device.
- If any of the following situations arises, get the device checked by service personnel:
 - The power cord or plug is damaged.
 - Liquid has penetrated into the device.
 - The device has been exposed to moisture.
 - The device does not work well or you can not get it working according to the User Guide.
 - The device has dropped and damaged.
 - The device has obvious sign of breakage.

TÜV Rheinland Certification

TÜV Rheinland Low Blue Light Certification

Blue light has been shown to cause eye fatigue and discomfort. MSI now offers monitors with TÜV Rheinland Low Blue Light certification to ensure users' eye comfort and well-being. Please follow the instructions below to reduce the symptoms from extended exposure to the screen and blue light.

- Place the screen 20 28 inches (50 70 cm) away from your eyes and a little below eye level.
- Consciously blinking the eyes every now and then will help to reduce eye strain after extended screen time.
- Take breaks for 20 minutes every 2 hours.
- Look away from the screen and gaze at a distant object for at least 20 seconds during breaks.
- Make stretches to relieve body fatigue or pain during breaks.
- Use the Reader/Anti-Blue mode or turn on the optional Low Blue Light function.

TÜV Rheinland Flicker Free Certification

- TÜV Rheinland has tested this product to ascertain whether the display produces visible and invisible flicker for the human eye and therefore strains the eyes of users.
- TÜV Rheinland has defined a catalogue of tests, which sets out minimum standards at various frequency ranges. The test catalogue is based on

internationally applicable standards or standards common within the industry and exceeds these requirements.

- The product has been tested in the laboratory according to these criteria.
- The keyword "Flicker Free" confirms that the device has no visible and invisible flicker defined in this standard within the range of 0 3000 Hz under various brightness settings.
- The display will not support Flicker Free when Anti Motion Blur/MPRT is enabled. (The availability of Anti Motion Blur/MPRT varies by products.)

Regulatory Notices

CE Conformity

This device complies with the requirements set out in the Council Directive on the Approximation of the Laws of the Member States relating to Electromagnetic Compatibility (2014/30/EU), Low-voltage Directive (2014/35/EU), ErP Directive (2009/125/EC) and RoHS directive (2014/35/EU) and RoHS directive (2014/35/EU) and RoHS directive (2014/35/EU).

(2011/65/EU). This product has been tested and found to comply with the harmonized standards for Information Technology Equipment published under Directives of Official Journal of the European Union.

FCC-B Radio Frequency Interference Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if

ſF

not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the measures listed below:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/television technician for help.

Notice 1

The changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Notice 2

Shielded interface cables and AC power cord, if any, must be used in order to comply with the emission limits.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- 1. This device may not cause harmful interference, and
- **2.** This device must accept any interference received, including interference that may cause undesired operation.

MSI Computer Corp.

901 Canada Court, City of Industry, CA 91748, USA (626) 913-0828 www.msi.com

WEEE Statement

Under the European Union ("EU") Directive on Waste Electrical and Electronic Equipment, Directive 2012/19/EU, products of "electrical and electronic equipment" cannot be discarded as municipal waste anymore and manufacturers of covered electronic equipment will be obligated to take back such products at the end of their useful life.

Chemical Substances Information

In compliance with chemical substances regulations, such as the EU REACH Regulation (Regulation EC No. 1907/2006 of the European Parliament and the Council), MSI provides the information of chemical substances in products at:

https://storage-asset.msi.com/html/popup/csr/evmtprtt_pcm.html

RoHS Statement

Japan JIS C 0950 Material Declaration

A Japanese regulatory requirement, defined by specification JIS C 0950, mandates that manufacturers provide material declarations for certain categories of electronic products offered for sale after July 1, 2006.

https://storage-asset.msi.com/html/popup/csr/cemm_jp.html

India RoHS

This product complies with the "India E-waste (Management and Handling) Rule 2011" and prohibits use of lead, mercury, hexavalent chromium, polybrominated biphenyls or polybrominated diphenyl ethers in concentrations exceeding 0.1 weight % and 0.01 weight % for cadmium, except for the exemptions set in Schedule 2 of the Rule.

Turkey EEE Regulation

Conforms to the EEE Regulations of the Republic Of Turkey.

Ukraine Restriction of Hazardous Substances

The equipment complies with requirements of the Technical Regulation, approved by the Resolution of Cabinet of Ministry of Ukraine as of December 3, 2008 N o 1057, in terms of restrictions for the use of certain dangerous substances in electrical and electronic equipment.

Vietnam RoHS

As from December 1, 2012, all products manufactured by MSI comply with Circular 30/2011/TT-BCT temporarily regulating the permitted limits for a number of hazardous substances in electronic and electric products.

Green Product Features

- Reduced energy consumption during use and stand-by
- Limited use of substances harmful to the environment and health
- Easily dismantled and recycled
- Reduced use of natural resources by encouraging recycling
- Extended product lifetime through easy upgrades
- Reduced solid waste production through take-back policy

Environmental Policy

- The product has been designed to enable proper reuse of parts and recycling and should not be thrown away at its end of life.
- Users should contact the local authorized point of collection for recycling and disposing of their end-of-life products.
- Visit the MSI website and locate a nearby distributor for further recycling information.
- Users may also reach us at gpcontdev@msi.com for information regarding proper disposal, take-back, recycling, and disassembly of MSI products.

Warning!

Overuse of screens is likely to affect eyesight.

Recommendations:

- 1. Take a 10-minute break for every 30 minutes of screen time.
- Children under 2 years of age should have no screen time. For children aged 2 years and over, screen time should be limited to less than one hour per day.
