

See the Big Picture ViewSonic® VP3881 Ultra-Wide Curved Monitor

Executive decisions require executive vision. With a sleek curved screen and 6.1 million pixels at your command, the ViewSonic VP3881 monitor lets you see the big picture. For the most demanding of managers and executives, the ViewSonic VP3881 monitor delivers it all.

- **Beautiful Design:** A sleek and frameless curved screen looks great on your desktop, while giving you the freedom to focus on your work.
- **Expansive Size:** A huge 38" screen, ultra-wide 21:9 aspect ratio, and stunning WQHD+ resolution, let you see more and do more on a single monitor.
- **Streamlined Desktop:** A single large screen instead of a dual-monitor setup a more organized workspace with less cable clutter.
- **Amazing Colors:** Colors are reproduced with utmost accuracy so your presentations match your creativity and executive vision.

Finally, an oversized monitor to match your oversized workload.

The ViewSonic VP3881 not only delivers on size, but it's packed with features to help you work smarter, faster, and more efficiently.

Single-cable Integration

A USB Type-C port delivers fast data, audio, video and quick charging over a single cable. That means you can plug in your laptop and charge up for your next meeting.

Custom Work Environment

Included ViewSplit software allows you to create an ideal and customized working environment on your ViewSonic screen. Just choose from a selection of pre-defined templates, or create your own customized layout, and ViewSplit will divide your screen into multiple viewing windows for streamlined multitasking.

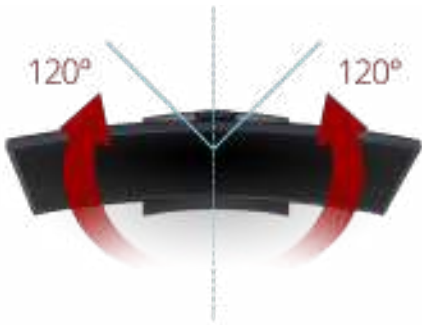

Easy on the Eyes

A gentle 2300R curve screen keeps every corner in focus, while Flicker-Free technology and a Blue Light Filter help to eliminate eyestrain from extended viewing periods. A built-in ambient light sensor helps to adjust screen brightness based on your surroundings.
